

i dont understand why the arrl would want to keep the morse code testing for the hf extra exam when a lot of countrys have drop the morse code testing for hf exams i would like to see the fcc grant this ncvec petition RM-10787 if they keep the morse code testing for the extra exam this would be a stumble block for them even if they pass the extra written test so i ask the fcc to give everybody a chance to get any license they they want by drop the morse code testing for all the hf exams thank you.
